# About Us

**Founded in 2020, Trishveda Naturals Pvt Ltd is a Life sciences based company located in Ludhiana, Punjab that aims to serve specialty ingredients to Personal Care, Food, Pharmaceutical and Nutraceutical Industries.**

We are totally focused on utilizing the vastly unexplored Indian Tradition of Medicine i.e. Ayurveda along with Modern Science and Technology to provide industries solutions through the means of Biochemistry, Green chemistry and Biotechnology based concepts and methodologies.

Our aim is to create high end but niche ingredients that can serve businesses to create extraordinary products for the human mankind. Value addition is a term that can be correlated with our company.

We are specialized in development and production of ingredients only using local indigenous plant based raw materials. We source these raw materials only from organic certified vendors thus promoting overall sustainable development.

Our prime focus is on organic, natural and certified based ingredients which allows us to create opportunities that respect mother-nature and not tamper with the resources provided to us.

**Our USP is to constantly derive ingredients through innovative technologies that would help both our Company and Country to make a presence in the global market.**

## — Almond Oil —

### SOURCING

- There is a historical link between Central Asia and the Valley Of Kashmir. Count almonds among the various bounties that were given to the valley by the region who were the first cultivators of the nut.
- Teardrop-shaped drupe counted in Nuts and mostly available in mixed dried fruits. Our Almonds (*Prunus Amygdalus Dulcis* Seed Oil) are Locally sourced from the Kashmir Valley, almonds are called by the name Badam. Cultivated using Grafting and Budding technique.
- Beauty seems to have been diffused in the air with the onset of Spring when the first tree-flowers to bloom are White-Pink in Hue. There is this mesmerizing charm all around, in the Month of March just because of the bloom of One single tree- The Almonds.
- The growth is supported in the regions of temperature ranging from 15 degree Celsius to 30 degree Celsius.
- Kashmiri Almonds are known as the "King Of Dried Fruits".

### FEATURES

- Virgin oil
- No added preservatives
- Unrefined
- Pure and Natural Ingredient
- Non genetically modified ingredient

## BENEFITS

- Calms inflammation
- Thin and supple feel
- Leaves a shiny feel
- Non tacky feel
- Moisturizer/Emollient
- Lightens scars
- Reduce dark circles
- Skin rejuvenation
- Skin protection
- Skin hydrator
- Removes stretch marks

## APPLICATIONS

- **Skin Care:** Creams, Lotions, Cleansers, Roll on
- **Hair Care:** Oils, Conditioners, Masks, Shower oils
- **Body & Hand Care:** Soaps, Massage oil, Butters, Scrubs, Lip balms, Body butters
- **Baby care:** Oils, Creams, Lotions

## PROPERTIES

- It has high nourishing properties.
- Vitamin A stimulates the production of new skin cells, which helps in reducing fine lines.
- Vitamin E provides the oil with its antioxidant properties that prevent the cell damage due to free radicals and UV rays of the sun.
- Omega-3 Fatty Acids prevent premature aging.
- It is rich in vitamins and minerals such as Vitamin E, Vitamin A etc.

## — Linseed Oil —

### SOURCING

- Linseed (also called flaxseed) comes from the flax plant (*Linum usitatissimum*), which belongs to the Linaceae plant family.
- It is categorized as a Rabi crop.
- Seeds are Sown from October- November; Harvested in January-March.
- Linseeds are sourced directly from the certified suppliers.

### FEATURES

- Virgin oil
- No added preservatives
- Unrefined
- Pure and Natural Ingredient
- Non genetically modified ingredient

## BENEFITS

- Fights skin irritation
- Improves skin microbiome
- Rehydrate dry & itchy skin
- Prevents flaking and nourishing scalp
- Non tacky feel
- Non comedogenic
- Emollient
- Balancing skin pH
- Improving elasticity
- Skin rejuvenation
- Anti inflammatory

## APPLICATIONS

- **Skin Care:** Creams, Lotions, Cleansers, Sunscreens
- **Hair Care:** Oils, Conditioners, Masks, Shower oils
- **Body & Hand Care:** Soaps, Massage oil, Body butters, Scrub, Aromatherapy, Lipsticks, Lip balms and Nail lacquers

## PROPERTIES

- According to Ayurveda, flaxseed has properties like Madhura (balances the skin pH), Picchaila (lubricous) Balya (improves tensile strength or elasticity of the skin), Grahi (improves moisture holding capacity of skin), Tvangdoshahrit (removes skin blemishes), Vranahrit (wound healing) and useful in Vata (skin) disorders including dryness, undernourishment, lack of luster/glow.
- Flaxseed oil is a rich source of essential fatty acids (EFAs): linoleic acid ( $\omega$ -6) and  $\alpha$ -linolenic acid ( $\omega$ -3), which regulate prostaglandins synthesis, hence induce wound healing processes.
- Linseed oil has been claimed to be a super food (vegan source) that can provide omega 3 fatty acids for skin and hair rejuvenation.
- Reduces sensitivity and improves barrier functions.

## — Chia Seed Oil —

### SOURCING

- “Chia” is derived from the Nahuatl word chian, meaning oily. The tiny, black and white seeds belong to a mint family, originated from the desert plant *Salvia Hispanica* grown in Mexico.
- They are the superfood for the Natural Cosmetics.
- Chia seeds are sourced from certified organic suppliers.

### FEATURES

- Virgin oil
- No added preservatives
- Unrefined
- Pure and Natural Ingredient
- Non genetically modified ingredient

## BENEFITS

- Calms inflammation
- Banish Blemishes
- Leaves a shiny feel
- Non tacky feel
- Emollient
- Boost collagen production
- Skin rejuvenation
- Prevents premature aging
- Relief dry skin
- Reduces frizzy hair

## APPLICATIONS

- **Skin Care:** Creams, Lotions, Cleansers
- **Hair Care:** Oils, Conditioners, Masks, Shower oils
- **Body & Hand Care:** Soaps, Massage oil, Scrub  
Lip balms and Body butter

## PROPERTIES

- It contains over 60% anti-aging omega 3, which increases collagen, that helps combat wrinkles, acne, blemishes leaving skin softer & rejuvenated.
- Excellent vegan source of omega fatty acids.
- Vitamin E, with anti-aging and anti-oxidant properties, reduces negative effects of free radicals.
- It contains Linoleic acid, essential fatty acid that our body cannot produce on its own. Linoleic acid is known for its anti-aging and firming properties.
- Best part is that chia seed oil is lightweight and absorbs easily, so it doesn't leave greasy residue and sits gorgeously under makeup.
- Chia seed oil helps strengthen skin barrier, which naturally weakens as we age, leaving skin prone to wrinkling and sagging. (Barrier is compromised by using overly harsh skincare treatments and other factors like UV radiation.) Omega-3 and omega-6 fatty acids, which chia seed oil is chock full of, can prevent this weakening by reinforcing the epidermis.

## — Sesame Seed Oil —

### SOURCING

- Termed as the queen of oilseeds, Sesame seeds obtained from the plant (*Sesamum Indicum*) are one of the oldest commodities used in India since centuries.
- It is also known as Til or Gingelly oil, the seeds can be cultivated as Kharif and semi rabi crops.
- It is a tropical crop and requires temperatures between 25-30 degrees Celsius.
- Our sesame seeds are procured directly from the farms.

### FEATURES

- Virgin Oil
- No Added Preservatives
- Unrefined
- Pure and Natural Ingredient
- Non Genetically Modified Ingredient
- GRAS

## BENEFITS

- Fights skin irritation
- Improves skin microbiome
- Film forming ability
- Thin and supple feel
- Leaves a shiny feel
- Non tacky feel
- Emollient
- Skin rejuvenation
- Photo-protective properties

## APPLICATIONS

- **Skin Care:** Creams, Lotions, Cleansers, Sunscreens
- **Hair Care:** Oils, Conditioners, Masks, Shower oils
- **Body & Hand Care:** Soaps, Massage oil, Body butters, Aromatherapy, Lip balms, Lipsticks

## PROPERTIES

- It has high nourishing properties.
- Copper is an anti-inflammatory material and high amounts of copper in sesame oil can easily decrease inflammation and soreness.
- Sesame oil has a lot of zinc, which is essential for your skin. It boosts skin flexibility and smoothness; it helps in decreasing the age spots and removing skin conditions including premature aging.
- Virgin sesame oil is also used as a sunscreen because it helps to protect skin layers.
- It contains sasamol which has a huge potential as anti-aging.

## — Hemp Seed Oil —

### SOURCING

- Hemp seeds have been a part of Indian history, is a legacy of its own handed down over to the humankind by the Himalayas.
- Hemp seed Oil is obtained from the plant Cannabis Sativa. Cannabis commonly known as "Bhang" is one of the five sacred plants in our Vedas. Hemp seed oil is not to be confused with Hemp oil is made purely from hemp seeds (devoid of CBD).
- Hemp is essentially a part of one of the eight clinical domains of Ayurveda, i.e, the Rasayana Tantra (the knowledge of rejuvenation).
- Our hemp seeds are sourced directly from certified suppliers and farms.

### FEATURES

- Virgin oil
- No added preservatives
- Unrefined
- Pure and Natural Ingredient
- Non genetically modified ingredient

## BENEFITS

- Calms inflammation
- Effective against eczema, dermatitis, urticaria
- Non comedogenic
- Non tacky feel
- Moisturizer/Emollient
- Lightens scars & marks
- Skin rejuvenation
- Skin protection
- Skin hydrator

## APPLICATIONS

- **Skin Care:** Creams, Lotions, Cleansers, Roll on
- **Hair Care:** Oils, Conditioners, Masks, Shower oils
- **Body & Hand Care:** Soaps, Massage oil, Butters, Scrubs, Lip balms

## PROPERTIES

- The abundance of fatty acids may make the oil an excellent choice for nourishing the skin and protecting it from inflammation, oxidation, and other causes of aging.
- Fatty acids in hemp seed oil may help balance the skin and prevent inflammation resulting in acne.
- Topical application of hemp seed oil strengthens the skin and makes it better able to resist infection.
- Prevents dry skin without clogging pores.
- Unique property of attracting moisture; hence can be termed as humectant.
- It also helps lock in hydration.

## — Kalonji Seed Oil —

### SOURCING

- Black cumin, (*Nigella sativa*), also called black seed, black caraway, Roman coriander, kalonji, or fennel flower, annual plant of the ranunculus family (Ranunculaceae), grown for pungent seeds.
- Sometimes hailed as a Panacea, black cumin seeds and their oil are widely used in traditional Ayurveda to treat a variety of ailments.
- The plant is sometimes grown as an ornamental for its attractive flowers and is closely related to love-in-a-mist (*Nigella damascena*), a more common ornamental.
- It is sowed in November end, having a cultivation period of 110-150 days and harvested in the month of April or May.

### FEATURES

- Virgin Oil
- No added preservatives
- Unrefined
- Pure and Natural Ingredient
- Non genetically modified ingredient

## BENEFITS

- Anti bacterial
- Non comedogenic
- Improves hair and scalp health
- Packed with Antioxidants
- Fights skin infections
- Moisturizer
- Skin protection

## APPLICATIONS

- **Skin Care:** Creams, Lotions, Cleansers
- **Hair Care:** Oils, Conditioners, Masks, Infusions, Shower oils
- **Body & Hand Care:** Soaps, Massage oil, Scrubs

## PROPERTIES

- The presence of thymoquinone makes it a very powerful antioxidant.
- Kalonji oil is storehouse of anti-aging antioxidants, besides fat-soluble vitamins like A, D, E and K.
- It slows down signs of aging, fights pigmentation and also treats a variety of skin conditions like psoriasis and acne.
- It helps in clearing clogged pores, prevent acne, pimples, wrinkles and fine lines.
- The active component thymoquinone in Kalonji contains protein, alkaloids that effectively support hair growth and volume. Kalonji oil arrests hair fall, reduces the aging of cells on the scalp and prevents hair thinning.
- In Ayurveda, it is known to balance both Vata and Kapha, and increase Pitta.
- Oil of kalonji seeds stimulates the body's energy and helps recovery from fatigue and dispiritedness.

## — Red Lentil Exfoliator —

### SOURCING

- Pulses, commonly found in most pantries, are not just loaded with vital nutrients, they also have amazing beauty benefits and are good for the skin. Lentils like masoor dal can help cure many skin problems.
- Malka masoor dal or Red split lentils (Lens Esculenta) have a pretty reddish-orange color in its dried form and are basically the split lentils without skin.
- Sourced from certified organic farms from Northern India.
- Red Split Lentils are packed with wholesome nutrition and make for a healthy ingredient.
- The grams contain nutrients of protein, fiber and minerals.
- This unpolished red lentil has an inviting aromatic aroma.
- Our Organic Red Lentil is fresh, non-GMO and natural and healthy.

### FEATURES

- Powder/Granules
- No added preservatives
- Pure and Natural Ingredient
- Non genetically modified ingredient

### PARTICLE SIZE

4

- 500 micron • 1000 micron

## BENEFITS

- Excellent cleanser
- Natural exfoliator
- Lifts off dead skin cells
- Skin tightening
- Reduces puffy eyes
- Natural bleaching agent
- Reduces tan
- Prevents early skin aging
- Promotes skin radiance
- Reduces pigmentation
- Gives youthful skin

## APPLICATIONS

- **Skin Care:** Ubtans, Face packs, Creams
- **Body & Hand Care:** Soaps, Scrubs, Bathing bars, Body polisher

## PROPERTIES

- Red lentils are loaded with essential proteins and nutrients like vitamins and minerals. It cleanses the open pores thoroughly and removes the accumulated dirt and impurities from deep inside the skin layers.
- Antioxidants in red lentils slow down aging by minimizing the damage of cells and tissues.
- Essential nutrients in them nourish the skin from inside out and remove dry patches.
- They absorb excess oil from the skin, thus prevent acne, breakouts, and blemishes.
- Red lentils work as a great natural cleanser that leaves skin clean, supple, and glowing.

## — Pink Salt Exfoliator —

### SOURCING

- Himalayan pink salt, the purest sea salt available in the world, is a super trendy ingredient in the food world. It is the purest form of salt - unprocessed and devoid of any pollutants and the chemical components.
- Naturally occurring salt, hand-mined from foothills of the Great Himalayas. Himalayan salt is harvested as large blocks and then it is crushed into the medium, small and very small pieces.
- Our salt is pure and the finest quality Himalayan Salt available, hand-mined salt found naturally deep inside the pristine Himalayan Mountains so there's little to no pollution or waste byproducts from manufacturing.

### FEATURES

- Powder/Granules
- No added preservatives
- Pure and Natural Ingredient
- Non genetically modified ingredient

### PARTICLE SIZE

- 500 micron • 1000 micron

## BENEFITS

- Excellent cleanser
- Anti inflammatory
- Soothes and calms irritation
- Retains moisture in deeper tissues
- Natural exfoliator
- Lifts dead skin cells
- Reduces tan
- Natural bleaching agent
- Reduces puffiness of eyes
- Skin tightening
- Prevents early skin aging
- Promotes skin radiance
- Reduces pigmentation
- Gives youthful skin

## APPLICATIONS

- **Skin Care:** Ubtans, Face packs, Creams
- **Body & Hand Care:** Soaps, Scrubs, Bathing bars

## PROPERTIES

- Used for skin cell restoration, potassium, magnesium and calcium are excellent anti-aging nutrients. Each is carefully blended into the scrub, giving the user adequate nutrient supply.
- Pink salt boosts circulation by shedding flaky skin.
- Pink salt can ease muscular pains and tightness, making the salt scrub a fantastic post-workout bath item. Just apply before rinsing, and let the warm water further reduce any tightness and swelling.
- Salt is a natural exfoliator and sloughs off dead skin cells easily. Essential minerals soften skin and restore hydration at the deepest levels.
- Pink salt has anti-inflammatory properties that heal and soothe skin by calming irritations and breakouts. It also helps retain moisture in the deeper layers of the skin.

## — Almond Exfoliator —

### SOURCING

- There is a historical link between Central Asia and the Valley Of Kashmir. Count almonds among the various bounties that were given to the valley by the region who were the first cultivators of the nut.
- Teardrop-shaped drupe counted in Nuts and mostly available in mixed dried fruits- our Almonds (*Prunus Amygdalus Dulcis* Seed Oil) are Locally sourced from the Kashmir Valley, almonds are called by the name Badam. Cultivated using Grafting & Budding technique.
- Beauty seems to have been diffused in the air with the onset of Spring when the first tree-flowers to bloom are White and Pink. There is this mesmerizing charm all around, in the Month of March just because of the bloom of One single tree- The Almonds.
- The growth is supported in the regions of temperature ranging from 15 degree Celsius to 30 degree Celsius.
- Kashmiri Almonds are known as the “King Of Dried Fruits”.

### FEATURES

- Powder/Granules
- No added preservatives
- Pure and Natural Ingredient
- Non genetically modified ingredient

### PARTICLE SIZE

- 500 micron • 1000 micron

## BENEFITS

- Skin energizer
- Moisture skin
- Deep cleanse skin
- Lifts dead skin cells
- Gives youthful skin
- Promotes skin radiance
- Reduces pigmentation
- Removes blackheads
- Promotes Skin tightening
- Improves skin elasticity

## APPLICATIONS

- **Skin Care:** Ubtans, Face packs, Creams
- **Body & Hand Care:** Soaps, Scrubs, Bathing bars, Body polisher

## PROPERTIES

- Finely ground almonds, are rich in vitamin E and D. It nourishes and nurtures while exfoliating and preventing ingrown hair.
- It prepares the skin for a smoother and closer shave. It works as an exfoliator and helps in removing dead skin cells.
- Almonds are believed to have the same etymology as the word 'amygdala', referring to the part of the brain that controls the ability to make decisions, create memories and process emotions. This is perhaps because almonds help to enhance these exact functions too.
- Almond Exfoliator is a popular addition to exfoliating skin care products because they loosen and remove dead cells when massaged onto the skin in a gentle, circular motion.
- Almond Exfoliator is soft on your skin and gives your skin a fresh glow. It is great for hydration of the skin and will exfoliate your face gently.

## — Coffee Exfoliator —

### SOURCING

- Coffee bean seed from the plant (Coffee Arabica ) is abundantly cultivated in the Southern part of India.
- We source the produce directly from tribal and native people in India, where the land is often protected against the use of chemicals and fertilisers.
- Heirloom plants. These are older varieties of species passed down through generations; well-adapted to their ecosystem, they are a result of natural selection.
- These varieties gently encourage biodiversity rather than being a hostile, alien or damaging element in an ecosystem & produce a holistic product, which is higher in flavour and has more bioavailability.

### FEATURES

- Powder/Granules
- No added preservatives
- Pure and Natural Ingredient
- Non genetically modified ingredient

### PARTICLE SIZE

- 500 micron • 1000 micron

## BENEFITS

- Skin energizer
- Lifts off dead skin cells
- Fights cellulite
- Reduces puffy eyes
- Skin tightening
- Promotes skin radiance
- Gives youthful skin
- Fights inflammation
- Reduces pigmentation
- Gives youthful skin

## APPLICATIONS

- **Skin Care:** Ubtans, Face packs, Creams (under eye)
- **Body & Hand Care:** Soaps, Scrubs, Bathing bars, Body polisher

## PROPERTIES

- Coffee grounds make a great exfoliant. Grounds do not dissolve in water, which makes them good at scrubbing away dead skin cells.
- Caffeic acid, an antioxidant, may boost collagen levels and reduce the premature aging of cells.
- Caffeine stimulates blood flow and widens, or dilates, the blood vessels. This increases blood flow, which can help the skin to naturally tighten. The result may be a reduction in the buildup of fluid under the eyes. This is primarily due to the presence of Theobromine in it.
- Coffee contains antioxidants, such as polyphenols. These may help to protect against ultraviolet (UV) rays and signs of aging linked to sun exposure.
- Scrubbing the face with coffee grounds can help to clear away dead skin cells and unclog the pores.
